L

I- **NOTA D'INSTALLAZIONE**

Qualora si verificassero perdite d'acqua causate da problemi d'installazione (fuori squadra del muro, del pavimento, del piatto doccia, ecc.) vi consigliamo di siliconare il box come indicato in figura

GB- **INSTALLATION NOTE**

If there are some water leaking caused by a not correct installation (the wall, the floor or the shower tray are out of square) we suggest you to put some silicon on the shower enclosure as indicated on the picture.

D- **INSTALLATIONSNOTE**

Bei evt. Wasseraustritten, welche durch Installationsprobleme (Schräge von Wand, Boden, Duschtasse usw.) verursacht wurden, raten wir Ihnen die Duschkabine zu silikonieren (Sehen Sie das Bild).

F- **NOTE POUR L'INSTALLATION**

Si il y a des pertes d'eau causées par des problèmes d'installation (si le mur, le sol ou le bac de douche ne sont pas en Équerre) on conseille de siliconer la cabine de douche comme on a indiqué sur le dessin.

I- La funzionalità della cabina doccia è subordinata all'uso per cui è stata progettata; la tenuta dell'acqua è quindi condizionata dal corretto utilizzo.

GB- The functionality of the shower enclosures is subordinated to the use it has been projected to. So the water seal is conditioned to the correct use.

D- Die Funktionalität der Duschkabine ist abhängig vom Gebrauch, für welchen sie geplant worden ist. Deshalb ist die Wasserdichtigkeit von der richtigen Benutzung abhängig.

E- La funcionalidad de la cabina ducha queda subordinada al uso para el qual ha sido proyectada; la contención del agua está condicionada por lo tanto a un correcto uso.

F- La fonctionnalité de la cabine de douche est subordonné à l'emploi dont a été projectée; la tenue de l'eau est donc conditionnée par le correct emploi.
